**STUDYING AUTUMN LEAVES.**

A Government Expert Seeking the Secret of Their Coloring.

The Government's new Bureau of Plant Industry is taking up the problem of how our gorgeous autumn foliage receives its varied coloring. That is one object of the investigations which are now being made by Albert F. Woods, lately appointed pathologist and physiologist of the bureau.

To preserve autumn leaves Mr. Woods says the gatherer should immediately lay them flat between two sheets of new blotting paper spread upon a table top and covered by a sheet of heavy books. It is essential that all moisture should be pressed out of them. By this simple process

## BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

**Eternal vigilance is the price of a beautiful complexion** when such remedies are relied on.

Mr. H. T. Shobe, 2701 Luma Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disgusting eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result. Until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years of age and the eruption has never returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions. S. S. S. purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

## THE GENTRY BROTHERS' SHOWS

An Attractive Street Parade Followed by Interesting Performances.

The parade of Gentry Bros' Shows, containing one of the best and largest collections of trained animals in the world, was an agreeable and pleasant interruption to the quiet of the thoroughfares of the National Capital, which had been largely depleted of pedestrians by the Labor Day celebrations. The parade traversed all the principal streets and was highly enjoyed, especially by the younger element. The shows include almost everything to be seen in the larger shows, only in miniature. They consist of 30 ponies, 12 dogs, 20 monkeys, and a number of performing baby elephants. Another attraction which arrived yesterday, is an infant pony, which has been named "Baby Washington."

The Gentry shows are favorably known wherever they have exhibited. They will remain here for one week only, and there will be performances at 2 and 8 o'clock p. m. each day, rain or shine. The shows have pitched tents at Thirteenth and U streets.
